General Engineering

VW 6711

Brief Introduction

Good day my name is Derrick Pilcher, and I am the owner of FAJ.

For 12 years I worked at a company called Comau based in Uitenhage at the time, and at Comau my position was project manager.

When Comau moved out of South Africa I started a business with a partner. After 15 years partnership I decided to go on my own and that is how I landed with FAJ.

Currently FAJ is situated at the old Dorbyl premises but ill be moving across the road to RKA Industrial Park by end of October 2020.

Services

Project Management

General and Precision Engineering

Electrical Panel Building

Fixture Servicing - Electrical

Fixture Servicing - Pneumatic

Services

Refurbishment and Manufacturing of new dunnage's , Trolleys and Racks

Spray-painting

Turnkey Projects Automation & General Electrical Services
